VERDUN CHIEF DEFENSE REPORTED EVACUATED; NEW THRUST PLANNED

FORT VAUX SHATTERED AND GARRISON FORCED TO FALL BACK ON FRENCH LINES, ACCORDING TO CONFIRMED GERMAN DISPATCHES.

(By International News Service.)

AMSTERDAM, March 2.—Fort Vaux, the chief defense of Verdun from the northeast, has been abandoned by the French troops, according to unconfirmed reports from German sources. The rumors state the redoubt has been shattered to a thousand bits by the powerful mortars safely hidden behind the Teuton lines and a hot fire now makes it untenable for a garrison.

Germany's Next Drive.

LONDON, March 2.—There is a reason to believe Germany's next drive will be between Rheims and Soissons where the Teuton line of battle curves out to within a comparatively short distance of Paris.

English and French war experts claim that such a maneuver would be in entire accordance with the policy of the Kaiser who believes in driving his troops at the enemy regardless of loss of life. In view of the fact that the attack on Verdun seems weakening, it is expected the Germans will make another desperate thrust at some other point without delay.

The commanders of the Allied troops are thoroughly alive to the new danger and are taking every precaution against surprise. The air is actually alive with scouting machines which are attempting to gain a glimmer of knowledge concerning the location of the next drive.

TEUTONS SINK MERCHANT SHIP AND MINE SWEEPER

(By International News Service.)

LONDON, March 2.—Two more ships, the Russian steamer Wentzel and the French minesweeper, Aurevior, are reported sunk by German submarines. Eighteen of the Wentzel's crew were drowned and 11 saved after floating all night on debris torn from the wreck.

It is understood that the entire complement of the Aurevior were picked up a short time after the disaster. The vessel was busy sweeping the route followed by English troop ships when she was torpedoed.

GERMAN AEROPLANE KILLS 9 MONTHS OLD BABY—IS CHASED BACK TO BELGIUM

(By International News Service.)

LONDON, March 2.—The German aeroplane which raided the southeast coast of England last night, killing a nine-months-old baby, was sighted again today off Dover. A half dozen British aircraft arose at once and gave battle. The Teuton machine, after holding her ground for a few moments, turned and fled in the direction of Belgium. It is reported several of the Allies' shots took effect.

PRESIDENT TO FORCE CONGRESS TO ACT AT ONCE; CRISIS COMING

WASHINGTON, March 2.—Unless the foreign relations committee of the house reports either favorably or unfavorably in a reasonable length of time on McLemore's resolution warning Americans to stay off armed merchantmen; President Wilson will demand the rules committee to submit some similar measure with a regulation forcing immediate consideration.

The above was decided at a conference today between the chief executive, Representative Garrison and Representative Flood. The president reiterated his determination that congress go on record for or against his submarine policy.

It is the belief of official circles that the present situation could hardly be more critical. A canvass of the house shows President Wilson that he cannot count on a majority of the Democrats, while all hope of definite Republican support has long since been abandoned.

Meantime, the chief executive told a party of newspaper men all negotiations are practically suspended action by congress. This statement led to the wide-spread report that in case the senators and representatives fail to bank up, President Wilson will take a startling stand.

Should it be definitely decided in his mind that congress will continue to refuse to recognize the wisdom of his policy or to claim it unfavorable, the president may advise his cabinet that negotiations with Germany and Austria are unsatisfactory and hand Count von Bernstorff and Zwiedonik their passports.

It is impossible to confirm this rumor, but just what President Wilson will do is causing grave concern. It is admitted on all sides he will refuse to accept renomination if congress fails to stand behind him. It is even hinted, in some circles, he may resign.

WITHROW CANADIAN PARTY NUMBERS 16

IS FIRST PERSONALLY CONDUCTED
ED PARTY TO FLORIDA AND
WILL STAY IN DAYTONA THREE
WEEKS.

The first personally conducted tour
of Canadians to Florida arrived in
Daytona yesterday, numbering 16, all
of whom are registered at the Hotel
Palmetto. The party is being con-
ducted by Miss Florence Withrow, B.
A., of Toronto, Canada, whose father
was the pioneer of Canadian personally
conducted tours.

In an interview with Miss Withrow,
at the Palmetto, last night, Miss Win-
throw declared to a News reporter
that her party was the first personally
conducted Canadian party that has
ever come to Florida.

Miss Withrow also stated that since
the party left Toronto they had visited
various northern cities and she spoke
interestingly about their visit to De-
troit. Further, that since coming
south they had spent five days in Ha-
vana, one in Miami, four days at Palm
Beach, two days at St. Augustine, two
at Ormond, and that they now intend
to stay in Daytona for the next three
weeks, as it is the general opinion of
the individual members of the party
that Daytona is the most beautiful and
interesting resort that they had yet
visited in Florida. Miss Withrow added
that it had been planned at first to
make the stay here two weeks, and
spend a week in St. Augustine, but
the party unanimously decided to stay
here for the three weeks.

Miss Withrow is a great "booster"
for Toronto but declared that when
she left that place several weeks ago
it was 10 degrees below zero and that
one of her party had received a letter
on his arrival in Daytona in which the
writer stated that it was then 24 de-
grees below zero.

In an interesting chat about other
tours which Miss Withrow has con-
ducted, she mentioned the fact that
she had conducted twelve tours to
Europe—three of which included
Egypt and Palestine; one tour to Rus-
sia and one to Japan and China.

The members of the party in Miss
Withrow's present tour include Mr.
and Mrs. M. C. Bogart, Napanea, On-
tario, Canada; Mr. and Mrs. W. B.
Dickson, Montreal, Canada; Mr. and
Mrs. John Mathers, Toronto, Canada;

Mrs. F. L. Barber, London, Ontario;
Miss E. Sharpe, Toronto, Canada; Mrs.
Wm. Carlyle, Toronto, Canada; Miss
Florence Withrow, Toronto, Canada;
Mrs. J. B. Sutherland, Toronto, Can-
ada; Miss E. A. Richey, Toronto, Can-
ada; Miss Ida Brooke, Listowel, Onta-
rio; Mrs. J. Bond, Galt, Ontario; El-
gin Hay, Listowel, Ontario, and Rich-
ard Wallace, Toronto, Canada.

BIG PREPARATIONS UNDER WAY FOR ORMOND ST. FAIR

HOTEL ORMOND, March 1.—Great
preparations are being made for the
Anderson & Price Memorial Library
fund, for which there is to be held a
street fair at Ormond Village this
month. All the young ladies of the
village, and many ladies in the hotel
are selling chances either in golf bags
and balls or silk sweaters, and so the
unwary are besieged to help this
worthy cause on all sides, but so at-
tractive are the pretty beggars that
dimes and dollars change hands be-
fore one is aware of it, and we hope
the financial success of the cause is
assured.

Easily Digested.

According to careful laboratory ex-
periments, white flour is more easily
digested, but whole wheat and graham
flour have a greater amount of pro-
tein. White flour yields 1,150 calories
a pound and whole wheat only 1,140
calories. The best bread flour is that
which takes the greatest amount of
moisture and the best pastry flour
that which takes the least.

Sensitive Measurement.

Minute bendings of a steel bar three
feet long and three and one-half feet
in diameter are accurately measured
by a curious but very sensitive device
of the United States bureau of stand-
ards. The bar, supported at each end,
has a small mirror fixed at its center
and above this is a frame holding an-
other mirror partially silvered. As
the light of a sodium burner is re-
flected in each mirror the lower mir-
ror shows a series of black and yellow
concentric rings. A very small weight,
even that of a pin, deflects the bar
and causes the circles to expand out-
ward. Each circle indicates a move-
ment of one hundred-thousandth of
an inch, the pressure of a finger, form-
ing five or more new circles, showing
a bending of one twenty-thousandth of
an inch.

REMARKABLE CATCH OF FISH BY NORTHERN TOURISTS

George Luke, of Greenwich, Conn.,
and John Hayes, of Johnstown, N. Y.,
yesterday made one of the most re-
markable catches of fish with rod and
reel from the Halifax river this sea-
son—the catch numbering more than
one hundred and included sheepshead,
blue fish, trout and bass. Both these
gentlemen are season guests at the
Seville and when they returned to that
hostelry with this large and remark-
able "catch" were the recipients of
various expressions of astonishment,
not only from their fellow guests but
from the hotel management.

Mr. Luke and Mr. Hayes are so
elated with the sport they enjoyed
yesterday that they are going to make
an early start this morning and try
their luck up the Tomoka.

BOXING MATCH FRIDAY EVE AT THE MAJESTIC THEATRE

"Cyclone" Johnnie Thompson, of
Chicago, and Johnnie "Kid" Lewis, of
New York, are signed up for a match
on the fist arena for Friday evening
of this week at the Majestic theatre,
in New Town.

Both boys are apparently in good
condition, Lewis getting his training
from the famed Georgia "nigger," Bat-
tling Mears, who has had him in
charge in the recent past. Thomp-
son is claimed to be in tip top shape
and both boys are going into the ring
for a knockout. Each of them has
had good hard work in numerous
cities over the country and from a
scientific standpoint, will put up an
article of punch not usually seen out-
side of the cities.

Strict Vegetarianism.

Imitation leather is used by some
vegetarians for boots, shoes and even
book covers.

Showing His Ignorance.

"What on earth are you doing?" de-
manded the indignant dining-car con-
ductor of the novice waiter; "serving
soup on a straight track? Why don't
you wait till we strike a curve? You
don't know the first principles of rail-
roading."—Puck.

Music an Aid to Surgery.

A Chicago surgeon finds that music
in the operating room is of great as-
sistance in putting nervous patients
into a calm, peaceful frame of mind
before going under the knife. While
a patient's favorite song is being
played or sung, he or she will, this
surgeon says, drift much more readily
under the influence of the anesthetic.

LARGE AMOUNT TAKEN IN AT ST. PAUL BENEFIT

One of the most brilliant and elabo-
rate affairs of the season was a cord
party given for the benefit of the St.
Pauls Catholic church, of Daytona,
Wednesday afternoon in the lobby of
the Hotel Clarendon. Much credit is
due to Mrs. M. J. Owens and Mrs. J.
Uebelhoer, of Seabreeze.

Thirty-six tables were arranged

in the spacious ball room and many
games of five hundred and bridge were
played until a late hour. At the con-
clusion of the games handsome prizes
were awarded to the players holding
the highest totals. These were won
by Mrs. H. Woodbury, Mrs. G. W.
Simmonds, Mrs. J. D. C. Morris, Miss
Chaffee, R. C. Pew, Thos. English, W.
F. Mitchell, Ed Pierce, for skill in
bridge. The five hundred prizes were
won by Mrs. Jacob Duga, Mrs. S. J. O'-
Connor, Mrs. Wiggins, Mrs. E. W.
Rowe. Every prize was worth the
playing and the afternoon was most

pleasantly spent by all of the ladies
present.

This afternoon's playing resulted in
a sum of \$575 being realized for the
benefit of the Daytona Catholic
church, which amount will be greatly
appreciated by the resident officers of
the church.

All of the ladies in attendance wore
beautiful gowns.

AMUSEMENTS

ORMOND

"THE DRAGON" AT
THE CRYSTAL FRIDAY

In "The Dragon," the next release on the Equitable program, which is coming to the Crystal theatre on Friday, there is a wonderful presentation of the idea that youth and innocence can not only conquer the dragon, which it is said lies in wait for those who may fall into its clutches in the city's streets, but can, in doing so, unwittingly bring wreck, disaster and even death to those who have been guilty of wrong doing in connection with her family. The story is worked out in masterly fashion, and there are thrills in plenty, especially when the heroine and long lost and just fond mother narrowly escapes destruction as a building is blown up and destroyed by fire, and the man who has wronged them loses his life. Margarita Fischer is the star of the production, and reveals a dramatic power which convincingly portrays the perils that beset the path of innocence, but from which that very innocence provides an escape.

AT THE ARCADE
THEATRE TOADY

"Their Last Performance," a Thalhouser, three-reeler, is a thrilling story of a pure young girl, who is stage struck, depicts the many temptations of such a life. How she falls for the inducements of wealthy men, and eventually gives up her life to save another innocent girl from the same fate. It is full of ginger.

"Jerry's Revenge" is a comedy which will make you smile, and drive away the blues. It is the attraction at the Arcadet theatre today.

"THE SPIDER," AT THE
CRESCENT TODAY

"The Spider," an extraordinary Paramount Picture produced by the Famous Players Film Co., gives Pauline Frederick an unusual opportunity for the display of her amazing talents, as the subject presents her in two diversely opposite roles, Valerie St. Cyr, a notorious Parisian beauty, and her deserted daughter, Joan. In the impersonation of these dual but distinct characters, the superb emotional artist performs miracles of character interpretation and of dramatic portrayal. The tremendous power of Miss Frederick's art and the wide range of her screen capabilities were never so forcefully illustrated as in her compelling delineation of this unique emotional picture. "The Spider" will be shown at the Crescent Theater today.

That Ought to Cure Her.

A man out West, who married a widow, has invented a device to cure her of eternally praising her former husband. Whenever she begins to decant on his noble qualities, this ingenious No. 2 merely says: "Poor, dear man! How I do wish he had not died!"

The Netherlands.

The kingdom of the Netherlands dates back to 1815, when the congress of Vienna granted its national independence under the rule of the House of Orange. At that time the provinces known as the Austrian Netherlands were united to Holland, but there was little sympathy of nationality, religion or racial inheritance between the two sections of the newly-formed kingdom.

Helpful Example.

The poet, Heine, is said to have had a pretty habit of standing before a mirror and cursing himself. This pastime is heartily recommended to poets of the present day. Having ample time to devote to it, they could do the job much better than the busy man who must perforce give attention to his daily grind, no matter how cordially pleasure beckons.—Kansas City Star.

Grit Always Wins.

Grit is the thing that counts. We all know young men who are hanging around, waiting for father to slip out of his old shoes. As if a pair of old shoes ever made a man out of a loafer! Why, father's shoes are ten sizes too big for any man that thinks money somebody else has earned will make him a gentleman! Grit is what these young chaps need, whether they know it or not. The day will come when the only man the world will count worthy of its respect will be the man who does things, even if he is forced to shut his teeth hard to keep back the groan of pain. Folks used to think that the only real soldier was the man who marched away to the sound of life and drum, to shoot and kill and destroy. It is not so.—Farm Life.

ORMOND, Fla., March 2.—Hotel

Ormond, with its habitual generosity of spirit, again tendered the use of its hotel parlors and service to the Ladies' Aid Society of the Ormond Union church for the purpose of holding its annual church fair on Thursday, February 24th, this proving one of the most successful bazaars the society has ever held. The Utility Booth, Mrs. John M. Richmond, chairman, and presided over by Mrs. George Halliday, Mrs. J. G. Daub, Mrs. Isabelle B. Stimpson, Miss Johnston and Miss Ward, was gay with every conceivable variety of bag and pillow as well as all sorts of fancy and useful articles; the candy table, Mrs. George H. Sage, chairman, with the Misses Baker, Reilly, Hanson, Reed and Coffin, in attendance, with its color scheme of green and yellow was particularly attractive; the flower booth, in charge of Mrs. Strong, of Hotel Ormond, was charmingly arranged; the old oaken bucket drew everyone to gaze into its limpid depths, this being presided over by the Misses Helen Sawyer, Anna Owens, Mrs. Guy Witham and Mrs. Gardiner the display of rag rugs and hammock pillows in charge of Mrs. H. B. Shaw and Mrs. D. W. Waldron received wonderful patronage and the tea served from four to six o'clock, in charge of Miss Jean Lindsay was both delicious and appetizing. Nearly everything was sold and the ladies feel very grateful for the generous patronage of the hotel guests and others attending.

The annual meeting of the Village Improvement association will be held on Friday, March 3, instead of March 10, as scheduled in the year book. On Friday, March 10, Mrs. Kirk Munroe will give an address at the auditorium.

George H. Sage, who has been of a short business trip to his home in Hartford, Conn., returned Thursday of last week. Mr. Sage was accompanied by his cousins, Mr. and Mrs. Arthur Jenkins, also Mr. and Mrs. David Sykes, of Rockville, Conn., who have joined their daughter, Miss Corrinne, at the Barker cottage.

The following clipping from a New Britain, Conn., paper has been received: "Mr. Harrison Bristoll, a former resident of Short Beach, died about two weeks ago at the home of his daughter, Mrs. Walter P. Steele at 260 Chestnut street. He was 93 years old. For more than 30 years Mr. Bristoll spent his winters at Ormond, Fla., returning North in the spring. A year ago on his return to New Britain, he suffered a shock from which he never fully recovered. He was a man of genial disposition and had a host of warm friends. He leaves one son, Truman H. Bristoll, of Walnut street, and a daughter, Mrs. Walter P. Steele, of Chestnut street. Funeral services were held from the house on Chestnut street, at 11 o'clock Saturday morning, February 19, and the burial was in Branford." The many friends of Mr. Bristoll will be very sorry to learn of his death. He always believed that a great many years were added to his life by coming to Ormond winters and was always happy to be here.

Mr. and Mrs. J. R. Ellicott and Mr. and Mrs. James Scobie have returned from a two weeks camping trip at Mr. Ellicott's camp on the Tomoka. They report a fine time.

Preparations are being made for the annual street fair given by the Village Improvement association. The date of the fair has been postponed from March 7th to March 14th. There will be the usual number of attractions and booths and it is hoped there will be a large attendance.

Bishop Vincent, who has been spending a week or so at the Bosarve and enjoying the fishing around Ormond, left Saturday for his northern home.

Messrs. George Carleton and Arch McNary gave a dance in the yacht club, Tuesday evening, February 29. Owing to the rainy evening, there was not as large an attendance as was expected, but all those who participated spent a very enjoyable evening. Punch was served during the evening and at intermission refreshments of ice cream and cake.

Mrs. J. A. Johnson and daughter, Miss Esther, who have been spending several weeks with Mrs. Johnson's parents, Mr. and Mrs. F. N. Johnson, returned to Crawfordsville, Ind., Wednesday. They are very much pleased with Ormond and regret leaving.

Mr. and Mrs. James Archer will leave on Monday for Tampa. The Chicago Cubs are in training at that place and Mr. Archer will join them there.

The town of Ormond now has fire protection, three chemical engines having been purchased; these to be distributed on both sides of the river. The engines have been tried out and are said to be very satisfactory.

Every winter day is summer in Daytona.

BOSTWICK PARK

"Just Across the Halifax"

There are two things which make a dwelling place ideal: One is location, where the business and social centers of attraction are most convenient; the other is modern improvements, such as city water, fire protection, sewerage, electric lights and phones.

CONVENIENT LOCATION.

Bostwick Park is just across the Halifax—about ten minutes' walk from the Postoffice, Palmetto Club, Burgoyne Casino, Banks and principal stores of Daytona.

IMPROVEMENTS.

A complete system of drainage and sewerage, city water, electric lights, telephones, stretching from the broad Halifax to the Atlantic Ocean, offering every inducement the river affords for boating and fishing, with the ocean beach for bathing or motoring,

Roadways are paved boulevard style with extensive parkage for trees and shrubbery. Sidewalks, gutters and curbs of concrete have been laid. Not only has the initial work been well done but provision has been made for further improvements to make this sub-division the most beautiful in the vicinity of Daytona.

HAMMOND BESTS
KELLER IN LIVELY
15-ROUND BOUTMAIN BOXING EXHIBITION AT
ARCADE ARENA LAST NIGHT
BEST YET STAGED IN DAYTONA
—PRELIMINARIES FARCES.

At the Arcade fight arena last evening, before one of the largest crowds assembled this season for the purpose of witnessing a pugilistic match, Jack Hammond, of New Orleans, fought Terry Keller, of San Francisco for a fifteen-round draw, although public sentiment from a view as to points, favored the Louisiana fighter.

The preliminaries, ordinarily fast, snappy and full of punch, proved a complete failure, Chas. Austin and Johnny Gardner mixing up for three rounds before being taken off the floor. However, as substitutes Johnny "Kid" Lewis of New York and "Kid" Wilbur, a local fighter, both

colored, were given a four-round try-out which was very exciting and full of pep and ginger throughout the entire time.

Artie Hopkins, of New Smyrna proved to be the "candy kid" in the second series of preliminaries and for twenty seconds pounded the Brooklyn "bouncer," Joe Palmer, unmercifully, knocking him through the ropes and was only saved from a fall to the floor beneath by a kind ring-side spectator who willingly tendered him an inward shove only to be chased entirely from the ring-side by his doughty opponent.

Jack Hammond, of New Orleans, promptly responded in the first round of his bout with Terry Keller, of San Francisco, landing him on his left lamp with a scorching upper cut, leaving a tinge of color and pulpy swolleness which he carried throughout the fifteen rounds.

To the fifth round of the game it seemed as if Hammond was certain of a knockout easily, but at this point Keller came forward with a screeching swing which landed on Hammond with telling effect. This blow could easily have laid the New Orleans boy cold and just as easily could he have

been credited with a decision on the fight, inasmuch as the awful punch was a bit low and many spectators yelled foul. Popular sentiment at this point would have readily given the hard-fought fistie battle to Hammond. In the eighth round Hammond hit the mat and stayed for eight full counts from a swinging blow to the belt. Apparently catching his wind, as Referee Hurd registered his counts with his clear-toned voice, Hammond quickly straightened up and waded into his opponent with telling effect.

Numbers of times the enthusiastic crowd hissed the continual clinching which Keller insisted upon in holding his more fair opponent, and his short quick jabs to the belt had telling effect on the Louisiana boy. Many times it was that Hammond, in breaking, would land his heaviest blows, and at no stage of the game did he falter under the terrific clinch-drives Keller landed, although the ringside fans repeatedly expressed their displeasure at Keller's method of attack under these circumstances.

During the final rounds of the fight, a continuous uproar of the enthused spectators filled the huge auditorium with yells and words of encourage-

ment for their favorite and a knock-out was expected and public sentiment, without the least shadow of a doubt, favored Jack Hammond. It is generally conceded that should Keller have not persisted in clinching and apparently "marking time" in this manner, he would have received a knock-out before the tenth round was finished.

The fight was staged under the direction of C. P. Miller and the like of which proved to be one of the most interesting and "sure enough" scraps fight lovers of this section have ever witnessed.

Daily Thought.

Physical courage, which despises all danger, will make a man brave in one way; and moral courage, which defies all opinion, will make a man brave in another.—Colton.

Granada.

Granada was at one time part of the Roman province of Roetia, but after the Arab invasion it became an independent Moorish kingdom. It was the last possession of the Moors in Spain, who tearfully gave up their country to their conquerors, Ferdinand and Isabella of Spain, in 1492.

Elizabethan Dyes.
So far back as the days of Elizabeth concerted measures were taken to improve the dyes employed in England. In 1759 a dyer named Morgan Hubblethorne was sent to Persia, "to the end that the art of dyeing may be brought into the realm in the greatest excellency, for thereof will follow honour to the realm, and great and ample vent of our clothes." He was instructed to "have knowledge of all the materials that may be used in dyeing, be they herbs, weeds, barks, gummies, earths, or what else soever. If any dyer of China be to be found in Persia, acquaint yourself with him, and learn what you may of him. Set down in writing whatsoever you shall learn from day to day, lest you forget or lest God should call you; that come life or death, your country may enjoy the thing that you go for."

The "SILENT SMITH"

—Model 8 shows what should now be expected of a typewriter.

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the user have dictated its construction. The user has decided in favor of certain improvements now incorporated in Model 8. Among them are:

Silence of Operation—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

Decimal Tabulator—A help in billing and tabulating. There is no extra charge for this convenience.

Variable Line Spacing—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

Faster Ribbon Feed—Insures new place of impact for each typeface.

Choice of Carriage Return—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained—ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

THE HUDSON Super-Six

Six cylinders is the smallest number of cylinders that will produce continuous power in a gasoline motor.

In size the motor is identical with last year's Hudson Six. Last year's Hudson, at its maximum, developed only 42 horsepower; the Super-Six develops 76 horsepower, an actual increase of 80 per cent. in power without any added size.

The Hudson Super-Six so eliminates vibration that on a testing block, at enormous speed, it hardly shakes a pencil stood ON END. In high motor speed capacity it exceeds by half, the best of former Sixes.

The Hudson Super-Six is equipped with an engine that will attain a speed of sixty miles an hour in 25 seconds from a standing start.

PEDESTRIAN TO RACE SKATERS AT ARCADE

W. B. MEILLER, SHORT DISTANCE WALKER, AND L. E. BURROUGHS, CONTORTIONIST, ARE ARCADE ATTRACTIONS FRIDAY.

Walter B. Meiller, of Charleston, W. Va., a ballplayer, formerly a member of the Rochester club of the International league, and a short distance walker, will perform at the Arcade Friday night. Meiller will walk a distance of one mile, while any local or visiting skater goes two miles on the roller skates. He also challenges any pedestrian for all distances up to five miles.

Mr. Meiller arrived here yesterday about 4:30 o'clock from Charleston, W. Va., from which city he has been walking for the last few weeks. He made the 110 miles between Daytona and Jacksonville since Sunday afternoon.

Meiller has been all over the country on "Shanks' Mare," and has entered some kind of an athletic contest at every good-sized town and city. He swims, jumps and plays ball as well as walks.

J. E. Burroughs, of Hillsdale, Mich., a professional contortionist, who has been walking over the U. S. A. in like manner to Meiller, will do a number of nimble feats sometime during the evening, Friday. Burroughs has made all of his expenses by exhibitions along the way, and is now staying in Daytona Beach.

These two excellent attractions may be seen tomorrow night at the Arcade skating rink.

But Two Known Roads.

There are only two roads by which any important goal can be reached—sheer strength and perseverance.—Goethe.

Mr. Reed and party on their way to Palm Beach stopped over in Daytona and were so well pleased with the city that they soon returned here for the season.

OPERA COMPANY AT THE OAKS
 Victor Canares, of the Manhattan Opera company of New York city, arrived Wednesday in Daytona and is now registered at the Oaks hotel, on Ridgewood avenue. Mr. Canares is in Daytona on a business mission and leaves in all probability, Thursday evening.

When questioned by a News reporter, Mr. Canares said that "Daytona people treated him all right," and that he could not complain.

Label the Boxes.

Every household has large boxes at least for hats, sometimes for furs and waists and other articles of dress, and many small boxes for other belongings. In the hunt for something almost forgotten the housekeeper often squanders precious moments in searching through every likely depository and probably comes upon the object of her quest in the last box of the selected group. All this waste of time and energy can be saved by the use of labels which record the contents of each box. Some recently noted captions of this kind were: "Blue Velvet Hat," "J. B.'s Panama Hat," "Small Tacks and Nails," "Empty Bottles," "Corks."

ILLINOIS CENTRAL D. P. A. ARRIVES

A. J. McDougall, district passenger agent for the Illinois Central railroad, arrived Wednesday evening from St. Paul, Minn., and will be in Daytona until toward the last of the month in the interest of travel northward by the Seminole Limited. H. C. Cantwell, traveling passenger agent of the road, who has looked after the business here for several past seasons, will this year be stationed in Miami. Mr. Cantwell, who has been in the city for several days awaiting the arrival of Mr. McDougall, will leave this evening for Miami.

Mr. McDougall, who is well known to many of the winter visitors of Daytona and vicinity, will make his headquarters while here at the Despland hotel. He says his road is even better prepared than ever before to care for its patrons and the train service is absolutely unexcelled.

HOUSE-BOAT MARILDA HERE ON WAY SOUTH

The Marilda, hailing from Sag Harbor, Long Island, and owned by F. A. Davis, of Columbus, Ohio, tied up at the city dock late last evening. She is a handsomely equipped house-boat of 80 feet over-all, 17-foot beam and draws three-feet-four. She is driven by twin screws and two 35-horsepower Sterling motors at a speed of 10 1/2 miles per hour.

The Marilda will leave tomorrow morning for points south, including Miami and Palm Beach. She sailed from St. Augustine two weeks ago. After spending a month or more in lower Florida, Mr. Davis will cruise back to Sag Harbor. He has with him a large party.

The Marilda sleeps 11 persons—five crew and six guests. She carries a dingy and small speed-boat on her upper deck. She is equipped with an independent electric light plant. She was built for Mr. Davis by the Greenport Basin and Construction Company of Greenport, Long Island.

Optimistic Thought.

Wish rather to be well spoken of than to be rich.

TO KEEP BRITISH

WITHIN THE EMPIRE

LONDON, March 1.—A movement is underway here to keep British subjects inside the British empire. Sir Rider Haggard said recently that Australia can support 50,000,000 white people in comfort. After the Boer war there were 250,000 emigrants from the British Isles, of whom 123,000 went to the United States. Such an occurrence at the end of this war will be prevented, it is hoped.

A Mingled Yarn.

The web of our life is a mingled yarn, good and ill together.—Shakespeare: "All's Well That Ends Well."

Their Makeup Must Differ.

One drop of petrol will kill a wasp instantly, but if applied to a bee or a fly it will be quite ineffective.

Under the Oilcloth.

Oilcloth when used to cover tables will last much longer if the tables first be covered with paper, well rubbed with machine oil to keep the under side of the oilcloth moist.

PORT ORANGE

PORT ORANGE, March 1.—Mr. and Mrs. F. M. Townsley and Mr. and Mrs. Ellis H. Kerr returned Monday from a motoring trip to Miami. They reported a nice trip with good roads except dust most of the distance. They were caught out in a very heavy rain storm that effectually laid the dust and made the rest of the trip more enjoyable.

Mr. and Mrs. Cory with Mrs. Smith and Mr. and Mrs. Amidon, returned Tuesday from Lakeland, having motored over from here on Friday last.

Dr. Charles Padillo, at last report, was lying in a critical condition from an operation in an Atlanta hospital. The doctor is a specialist in children's diseases and has been very successful in his chosen vocation. His many friends here hope for the speedy recovery of the genial doctor, and that the children may long have the benefit of his talents employed in their behalf.

The "Good Times Club" was recently entertained on Tuesday by Mrs. Pool.

Friday, the third, has been designated by the Progressive League as "clean-up day."

On Saturday, March 4th the Port Orange Literary and Library Association will celebrate their 10th birthday by a dinner at Ridgewood hall, by the association to their friends, at a nominal cost. Beside the good things provided for the dinner, musical entertainment will be provided that will well repay those who attended. Everybody is cordially invited to be present and get acquainted.

Next week has been selected by the "Children's Home Society" of Florida, for a special effort to be made to replenish the funds of the society that is caring for and providing homes for the unfortunate children of Florida. Donations may be given to the officers of the "Willie Workers" who will be that they are promptly forwarded. Mrs. J. B. Fass, president, Mrs. Kisor, secretary, Mrs. Mary Davis, treasurer.

The "Tacky Party" held under the auspices of the Progressive League, at Ridgewood hall, on Tuesday night, netted \$200. Much amusement was afforded by the various "set ups." Miss Florence Reed and Herbert Masters were voted the prizes for costumes. Miss Sheehan gave two fine

recitations with fine effect. A spelling bee helped to while away the time. Cake and fruit juices were passed around and was followed by the Virginia Reel, and dancing ended up the occasion. The entertainment was much appreciated by those present, who enjoyed many hearty laughs and forgot the sober things of life for a season.

The annual town election for Port Orange will be held on Tuesday, March 14th, at the council room in the Vass building. The officers to be elected are mayor, clerk, assessor, marshal and collector, for one year, and two councilmen for two years. The candidates who have qualified at this writing are: For mayor, W. S. Sands; for clerk, J. E. Metts; for assessor, J. E. Metts; marshal, W. E. Johnson; collector, A. M. Martin; for councilmen, T. J. Sparksman and Frank Butler.

NEW SMYRNA ELKS TO TAKE DAYTONA BY FORCE FRIDAY

DOWN COAST HERD OF HORNED
MEN SORE BECAUSE DAYTONA
BUNCH IS MONOPOLIZING THE
LIMELIGHT.

There is another town in Florida besides Daytona. At least that is the claim put up by the New Smyrna Elks, according to a protest written in blue vitrol and sent up here by the men who wear horns and live in the obscure city to the south. The New Smyrna Elks are sore and they want everybody in Daytona to know it. And the reason for this display of red fire and temper is because they claim the Daytona bunch is trying to "hog" the limelight.

New Smyrna claims the liveliest bunch of horned men between Oak Hill and Port Orange and if reports from the down coast city were to be credited, they will make themselves known in the big parade to be pulled off here Friday afternoon. D. Perkins Smith has been chosen as leader of the tribe of wild men from the territory bounded by Turnbull hammock and the Indian river and General Smith has carefully laid his plans to capture Daytona. The attack will be made at 3 o'clock Friday afternoon and fair warning is given the women and children, as well as the candidates, to be prepared to witness anything from a slap on the wrist to the kidnapping of Commodore Burgoyne.

The stunts to be pulled by the New Smyrna herd will be entirely separate and apart from anything planned by the Daytona bunch, and even High Mogul Crouch and Cocky Don Morris haven't been tipped off to what these stunts will be. They claim to have captured Daytona's goat and will display the animal to public gaze when the proper time comes.

Look out for New Smyrna!

Poor Return for Investment.

Years ago an expedition went up the Missouri river to the place where in 1856 a cargo of 500 barrels of whisky had been lost. The value of the fifty-year-old whisky was the incentive rather than thirst. The wrecking party spent \$2,000 and rescued a pair of socks.

MISERY-PRODUCERS TO FEATURE ELKS INITIATION STUNTS

ITALIAN SUPPER TO BE SERVED.
PREPARATIONS NEARLY COM-
PLETED FOR BIG AFTERNOON
PARADE.

What the Elks are going to do to the 20-odd candidates they will initiate Friday night will be a plenty, judging from the preparations that are being made. An express-car load of contraptions will arrive tomorrow from Jacksonville, and the staging of the initiation will be under the personal direction of "Walt" Winchester, for many years one of the chief misery-producers of the Shrine. As the workings of the Elks are secret, it is natural that no publicity is being given to the plans of the initiatory committee.

After the work of the lodge is completed an Italian supper will be served to the members of the Daytona lodge, and all visiting Elks in the locality. M. Champagne, who is a descendant from the land of Garibaldi, will have charge of the preparation of the supper, and all the local maccaroni farms in this vicinity have been devastated to secure material for the repast.

The burro is being groomed for Major Morris, the marshal of the parade, but wise ones opine that the burro may be a bit particular about allowing the major to straddle him. The major says, however, that he can ride anything that has four legs.

The parade will leave the Elks' home at 3:00 o'clock Friday afternoon and wend its way down Beach street. A further line of travel has not yet been designated.

THE STEAMER SWAN
CRASHES BULKHEAD OF
THE WOODEN BRIDGE

The stern-wheel steamer Swan, running north, owned and operated by the Howard Transportation company, tore away the east bulkhead of the draw on the middle wooden bridge yesterday at about 3:30 o'clock when she passed through the starboard (right) side of the dual opening.

It is understood for some unknown reason, her bow swung abruptly out of the channel and the next moment she struck the pilings, ripping them away like so much tissue paper. The vessel was not damaged to any great extent.

Because of the accident the middle bridge has been closed to the passage of automobiles and teams, and will probably remain out of commission the best part of the day. Although a gang of repair mechanics have been on the job since yesterday afternoon, no traffic made use of the structure this morning. The local bridge employees announced they could as yet form no estimate of damage in dollars and cents.

ASHEVILLE EXPERIENCING
GREAT SOCIAL SEASON

ASHEVILLE, N. C., March 1.—Never in years has Asheville experienced so gay a social season. The varied amusements afforded attract and hold throngs of visitors, many of whom are here for the first time.

Superb weather conditions have maintained throughout the winter, and the visitors are charmed with the indoor and outdoor amusements, planned for their benefit. Battery Park is filled with a joyous set of young people who are "doing things" all day long, and something different every day. For the day, dressed in Southern sport clothes, they drive, ride, motor, golf or play tennis, in the evening, in wonderful evening frocks, they dine, dance and play cards—a continuous performance of good times.

Washington's birthday ball was the feature of the week. Hundreds of flags, yards of bunting and other patriotic fences gave a national air for decorations, and society dined and danced with American enthusiasm.

An announcement of a spring golf tournament at the Country Club greatly interests the golfers at Battery Park, and numbers will arrive in March for the event. Strenuous practice has already begun on the splendid links.

The Mardi Gras hall at the Manor will be an attractive feature next week. The tea dances attract large crowds at Battery Park on Tuesdays and Thursdays. Parties were given last week by Miss Grace Allen, of Washington; Mrs. Augustus Shepard, of New York; Mrs. John Phinny, of Boston; Mrs. King Kennedy, of Indianapolis; Mrs. John Kelley, of New York; Mrs. Arnold Vanderhoof, of Asheville; J. R. Warfield, of New York, and others.

Stopping at Battery Park are: Mr. and Mrs. C. F. Taylor, Mr. and Mrs. A. B. Young, New York; Paul McSweeney, Philadelphia; Miss Crandell, New York; Mrs. Morgan Shuster, New Jersey; Miss Sarah Davidson, Denver; Mr. and Mrs. C. O. Miller, Stanford; W. S. Smyth, Pittsburgh; A. C. Hall, New Jersey; Franklin W. Rose, Washington; Miss M. A. Johnstone, Massachusetts; Mrs. Willey Reynolds, Michigan, and Miss Emma Frohman, New York.

To Prevent Dampness.

In damp weather always place a small wooden box filled with lime in the storeroom. This keeps the air dry and sweet, as the lime absorbs all the dampness.

Little to Worry About.

Investigation by the geological survey of the erosion of drainage basins proves that the surface of the country is being worn away at the rate of about an inch in 750 years.

His Sad State.

"My Uncle Festus is in a deplorable condition," related Maudlin Morose. "He has such sinister symptoms and so many of them that he is firmly convinced that he is being hurried to the tomb by a serious malady, but just what it is he don't know. You see, he got hold of a patent medicine almanac giving a long list of symptoms which he at once recognized as being the very ones that he himself was entertaining, although he wouldn't have known he had 'em if he hadn't read it there in uncompromising black and white. And then he found to his horror that the next page, giving the name of the awful disease which caused those symptoms was torn out. So now he knows beyond the peradventure of a doubt that there is something terrible the matter with him, but can't determine what it is."

LIEUTENANT DILLON
WOUNDED IN FRANCE

CANADIAN COUPLE VISITING RELATIVES IN HOLLY HILL RECEIVED WORD OF THE WOUNDING OF THEIR SON.

Mr. and Mrs. J. M. Dillon, of London, Canada, who have been for several weeks with Mrs. Dillon's brother, W. H. Heath, and wife at Holly Hill, received a telegram Wednesday morning from their daughter conveying information of the wounding Tuesday afternoon of their son, Arnold, who is serving as a lieutenant in the Canadian contingent with the British army somewhere in France or Belgium. The first message, stating that the young man had been slightly wounded, was followed by two others later in the day; one from Mr. Dillon's business partner, saying it was a severe shell wound in the face, and that Arnold was in the Dutchess of Westminster hospital in Letouquet,

France, and a second one from Miss Dillon, telling them her brother was not so seriously wounded as at first reported. They are anxiously awaiting more definite and detailed information. Lieutenant Dillon, who has visited this city and was here the last time three years ago, was married on the eve of his departure for the seat of war and his young wife is now in England, having gone there from Canada to be with him on a promised furlough.

Made Jack Sweat.

While enjoying the new-found bliss of the honeymoon a doting bridegroom hired a tandem bicycle and took his bride for an afternoon's roundabout run. The fair lady, knew little or nothing about wheeling. The fond husband got his head down and plugged along as hard as a galley-slave every inch of the 33 miles, and when they got to the journey's end the perspiration was streaming from every pore in his anatomy. But not so his charming wife. She stood by as cool and unconcerned as possible, and when the poor benedict had recovered his breath a little, judge of his feelings when she gingerly touched one of the pedals and sweetly inquired: "Oh, Jack, what are these little twirlings for?"

DAYTONA IS THE PLACE
TO LIVE ON EAST COAST

C. H. Foye returned Wednesday afternoon from Melbourne where he had been for about three weeks and rejoined Mrs. Foye, who has been spending the season with her mother and sister, the Mesdames Catherine and Emma Beebe, at their home on South Ridgewood avenue. Mr. Foye, while at the Melbourne, placed the contract for two store buildings on property owned by him in that place. He freely says, however, that after all, Daytona is the place to live on the East Coast. Mr. Foye expects to return to his home in Cedar Rapids, Iowa, in about two weeks' time.

gaspipe and netting; has made a pit
for the players' bench and covered it
with ashes to keep out the sand, and
has improved the plumbing so that the

GERMAN RAIDER TAKEN OFF BRAZIL.

(By International News Service.)

BUENOS AIRES, March 2.—It is reported in
marine circles that the German raider, Moewe,
which captured the Appam, has been taken by an
English cruiser off the coast of Brazil.DIAMOND IS BETTER;
EBBETS AND ROBINSON
DECIDEDLY OPTIMISTICCharles H. Ebbets, president of the
Brooklyn Nationals, is spending a
large part of the day on the Seabreeze
ball field. He reports the diamond im-
proving rapidly.The powerful arm of the press
caught Manager Robinson on the fly
this morning as he was boarding a car
bound for the ball park. He stated:
"This last drop of rain has done the
grounds a lot of good. The infield is
in fine shape, though the outfield is a
trifle sandy. We claim you can actu-
ally see the grass sprouting as a result
of the recent showers, but Mr. Eb-
bets thinks that's a spectre of an over-
optimistic imagination. The boys are
getting to work with a lot of enthu-
siasm. There is no doubt in my opin-
ion that Rigler has performed won-
ders with the field."Manager Robinson announced this
morning the following men will ar-
rive today: McCarty, Dell, Pickman,
Olson and Johnson.President Charles H. Ebbets of the
Superbas announces that Manager
Robinson has bought the release ofOutfielder Hickman of the Baltimore
Feds. This is the first Federal League
player, aside from Jimmy Johnston,
who did not play with the Feds, to
get a berth with the Brooklyn team.
Hickman did not play in fifteen games
with the Terrapins last season, with
the result that his Federal League re-
cord is an unknown quantity. He
jumped to Baltimore from Chattanooga,
where he played in 1914. His record
is not in the book for 1914, show-
ing that he played in less than five
teen games during that season.
Robby seems to think, however, that
Hickman has the ability, and so the
new player will go South with Uncle
Wilbert and show his wares. They
leave today. Hickman is 22 years old,
weighs 170 pounds and is about 5 feet
7 1/2 inches tall.At the same time, announcement is
made to the effect that Edward L.
Monroe, a catcher, had been released
to the Topeka Club of the Western
League. The acquisition of Chief
Meyers made this necessary, as four
catchers—Meyers, Miller, McCarty
and Wheat—will prove sufficient for
Uncle Wilbert's needs.Charley Rigler, umpire, horticultur-
ist and all-around mechanic, says the
infield is ready now, left and right
fields are O. K. and center field, which
has recently been filled in, requires a
bit of rain to pack it down. Grass is
growing everywhere except in center

GAVE EXHIBITIONINTERESTING ENTERTAINMENT
BY PROF. M. M. WOOD, AS FIFTH
NUMBER OF LYCEUM COURSE
AT PUBLIC SCHOOL.The fifth in the Redpath series of
the lyceum course was given in the
school auditorium Wednesday evening
when Professor Montraville M. Wood,
the distinguished and famous scien-
tist, assisted by his daughter, Miss
Allene M. Wood, gave a most interest-
ing and instructive performance.The first part of the demonstration
was devoted to the explanation of the
ultra-violet ray, a subject truly scien-tific. Mr. Wood brought out the fact
that the ultra-violet ray was used in
Europe as a healing method, long be-
fore it was even dreamed of in the
United States. It has been most suc-
cessful in the curing of surface sar-
coma, and greater possibilities have
been attained since Thomas Edison
became interested in the subject, and
at the present time it is used as an
internal remedy, with unbounded suc-
cess.The gyroscope was then taken up.
This, Professor Wood explained, is a
rotating wheel, mounted in a ring or
rings for illustrating the dynamics of
rotating bodies, and the composition
of rotations. It was devised by Pro-
fessor W. R. Johnson in 1892, by whom
it was called the rotopscope, but was
later brought to the attention of the
public by Leon Forepaugh, that was in
1892, and has been the cause of much
research work by the scientists. Pro-
fessor Wood explained that, as yet,
not much has been absolutely estab-
lished upon its attainments, except
that it pertains to electricity and grav-
ity, but he handled his subject so clev-
erly and with such a perfect finish,
that his audience was convinced of his
wonderful ability.His illustration of the power of air
navigation by the use of a miniature
monoplane and small boat clearly
brought out the contingency of safe air
travel.A word of praise is well deserved by
Miss Wood, who most ably assisted
her father in his lecture.

Would Retaliate.

It was in a country barber's shop,
and a farmer with a week's growth of
stubby beard had seated himself in a
chair to have his whiskers cropped.
"Guess you'll have a time gittin' them
off," he remarked, as the barber be-
gan rubbing on the lather. "Oh, I
don't know," said the barber, careles-
sly. "All beards look alike to me."
"Wunst I went into a barber shop to
git shaved," resumed the farmer, "and
after the barber was done and I was
payin' him, he remarked, 'Say, old
man, if all beards was like yours I'd
give up the barber business.' I sez
to him, I sez, 'Well, you haven't got
anything on me, old man. If all bar-
bers was like you I'd let my beard
grow.'"
